ATARI

PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions
Altered vision**

**Eye or muscle twitching
Involuntary movements**

**Loss of awareness
Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Prologue

Fourteen-year-old Yusuke[®] Urameshi is having a typical day. He's cutting class at school, having arguments with his teachers, and getting into fistfights with his rival Kuwabara[®]. Hey — when you're the toughest kid in town, you have a reputation to maintain!

But then Yusuke[®] does something that betrays his killer rep. He dives in front of a speeding car to push a little boy out of harm's way! Yusuke[®] makes the ultimate sacrifice for the sake of another, but is it really time for this brash young man's life to come to an end?

Led by the sprightly, pink-robed Botan after saving the boy, Yusuke[®] enters a realm that is not quite normal — Spirit World. There, Yusuke[®] meets Koenma, a 700-year-old ruler with the body of a toddler, pacifier and all! But there's no room for laughs, as Koenma gives Yusuke[®] an ordeal to restore his life — hatching a Spirit Beast!

By completing a series of tasks, Yusuke[®] has reclaimed his life, but has only one day to be revived by someone's kiss—and that someone might be Kuwabara[®]! Back in the flesh, Yusuke[®] finds he can see supernatural creatures hiding in the living world and quickly hunts down a demon criminal. With this move, he learns his adventure is only beginning. Yusuke[®] is a Spirit Detective.

Object of the Game

The Dark Tournament...

It is the fiercest fighting competition on either side of reality. Organized by human businessmen who make their fortune in the underbelly of the black market, and muscled by the most notoriously cutthroat demons Spirit World has to offer.

Each millionaire assembles a team of five fighters, and the teams fight to the death.

Sometimes, a special team is invited to the tournament as guests, made of fighters who have earned a reputation for causing trouble. Participation is not a choice for them. This year, one such team exists.

Yusuke[®], Kuwabara[®], Kurama[™], Hiei[®], and the mysterious masked fighter are this year's special guests.

And so, it begins...

Yu Yu Hakusho: Tournament Tactics[™] is a tactical strategy game based on the *Yu Yu Hakusho: Dark Tournament*[™] series. Starting as Yusuke Urameshi, you progress through the game defeating enemies and gaining allies in the Dark Tournament as you work your way to the final goal; defeating Toguro and winning the Dark Tournament.

Each of the ten characters you can play has unique abilities that can help Team Urameshi win the tournament. The playable characters include Yusuke[®], Masked Fighter[™], Hiei[®], Kurama[™], Kuwabara[®], Yukina[™], Chu[™], Rinku[™], Touya[™] and Jin[™]. Similar to the Dark Tournament, you may only select five characters to use at a time. But just because those rules apply to you, don't expect your enemies to play fair.

Item Menu

The Item Menu lists available items, including heal boosts, Spirit Energy boots, heal rings and attack rings. Any character can equip these items.

To change characters, press the **+Control Pad** ◀ ▶. Press the **A Button** to select an item.

Maps

This is the main map that shows all of the areas in the game. Use the **+Control Pad** to highlight a location and then press the **A Button** to enter the area map of that location.

The area maps are where your team will enter battles. Press the **A Button** on a map spot to enter a battle. Red spots indicate a battle has already been won, and a flashing spot indicates your next fight. Press the **B Button** to exit to the main map.

Action Menu

You select your characters' actions from the Action Menu:

Move: Move to a different spot on the landscape. When you select Move, the ground will highlight to show where your character can go.

Attack: This opens the Attack Menu, which lists available attacks and their Spirit Energy cost.

Overdrive: If your character has built up enough damage to enemies, you can launch a devastating Overdrive attack.

Focus: Opens the Focus Menu, which lists alternate moves [see "Focus Menu" on page 14].

Wait: Choose this to make a character skip the current turn.

Attack Menu

The Attack Menu will vary by character, depending on which attacks are unlocked.

Select an attack from the menu and then choose an enemy. As you highlight an enemy, information about him appears on the screen.

Once you choose an attack, a window opens to display the following information:

Character Name

Health Pool

Spirit Energy

Spirit Energy
Required

Character Level

Overdrive

Attack Name

Initiative Points Cost

Focus Menu

Defend: Decrease damage taken

Taunt: Pull enemies away from a friendly player toward the taunting character

Mend: Replenish some hit points on selected character

Recharge: Replenish some Spirit Energy Points on selected character

Spirit Energy

Every character has a number of Spirit Energy points available. This number increases as a character gains levels.

Each attack that uses spirit energy costs Spirit Energy points. For example, Yusuke's Spirit Gun costs 12 Spirit Energy, and his more powerful Spirit Shotgun costs 55 Spirit Energy.

Melee attacks do not require Spirit Energy points.

Initiative

The initiative system determines the order in which all characters move. All the actions a character takes add to his initiative number. If a character uses a high number of initiative points, he or she must wait longer for his or her next turn. Remember to check the initiative number of a move before you use it.

During the game, you will be able to see which character is at the top of the list and ready. You can look at the Order list by pressing **SELECT** while on the strategy map.

Example

CHARACTER NAME	INITIATIVE ROUND 1	IP COST FOR CURRENT ACTION	INITIATIVE ROUND 2
Yusuke*	2	3	5
Minotaur Demon	2.5	3	5.5
Hiei*	3	1.5	4.5
Flying Demon	3.5	2	5.5
Kurama™	4	2.5	6.5
Roto	5	4	9
START	Begin Battle		

In this example, the order of the attackers in Round 1 would be Yusuke*, Minotaur Demon, Hiei*, Flying Demon, Kurama™ and Roto, because the lowest number is fastest. In Round 2, the character with the lowest initiative would be Hiei* with 4.5, Yusuke* with 5, then a random choice of the Minotaur or the Flying Demon with 5.5. Kurama™ would be next with 6.5 and Roto would again be last with 9.

Focus Actions, such as Mend, Taunt, Defend and Recharge, also require IP.

Skills List

NAME	EFFECT	BASED ON
Initiative	Initiative	Movement
Spirit Damage	Spirit damage	Spirit
Melee Damage	Melee damage	Offense
Movement	Movement	Movement
Critical %	Chance to strike a critical blow	Offense / Power
To Hit	Ability to hit an enemy	Offense
To Dodge	Ability to dodge an enemy	Movement
Melee Resist	Ability to reduce melee damage	Power
Spirit Resist	Ability to reduce spirit energy attacks	Spirit
Lethality	Damage variance	Spirit / Movement

Each character has a variety of statistics that are based off of the primary skills. As you increase a character's skills when you level up that character, you also increase other abilities. For example, when a character's Movement skill increases, it increases his or her ability to move more squares per round, which increases that character's initiative and ability to dodge attacks.

The product's **Part #** is located in several places (on the CD label, Game Pak, package and/or plastic disc case, if applicable) and is usually identified by a number such as **04-12345**. When prompted by the Automated System, enter the **last five digits** of your product's Part #. (For example, Part # 04-12345 would require that you enter the "12345" portion of the number for that product.) **Note:** Some products simply feature a five-digit Part # without an "04-" prefix.

Live support is generally available Monday through Friday, 8:00 AM until 6:00 PM (Pacific Time). **Note:** We may be closed on major holidays.
